RUGGED POLYMER CABLE ASSEMBLY FOR HEAVY VEHICLES

Based on the SMA connector system with additional rugged parts, ELII is introducing a 40 meters cable assembly using 1 mm POF. Additional lengths are available on request.

The polymer assemblies are used in excavators, cranes, forklifts, and the likes.

The 40 meter configuration has a maximum attenuation of around 180 dB. For additional information, drawing, price, sample, and delivery, contact the sales department.
